Applications:

IDEAL FOR: HOME AND OFFICES

It irradiates an optimum wavelength on the 254 nm band that disinfects in a terminal manner avoiding human contact with polluted surfaces. Installations will be ready to use in minutes and without issues.

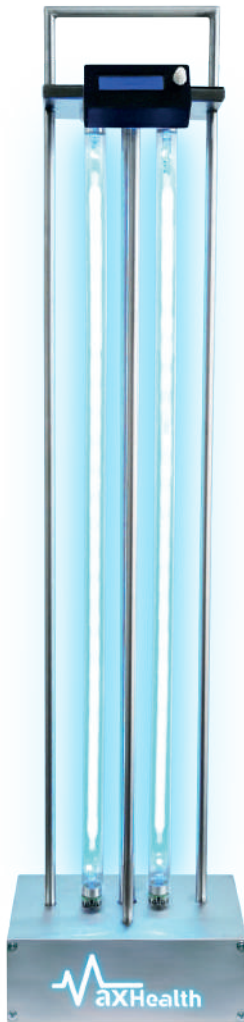

By using 2 maximum power lamps, UVHome kills bacteria and viruses in a range of 99% through the irradiation of ultraviolet short-wavelength light.

Factory warranty in MaxUVHome equipment

UV lamps lifetime

Lamps specially designed for hospitals and operating rooms disinfection.

Characteristics:

- ✓ Two 30W 2.9ft long lamps
- ✓ On/Off remote control
- ✓ 13.1ft disinfection per side in 25min.
- ✓ Timer system
- ✓ Approximate weight 19.8lb, resistant and easy to move
- ✓ Measures: 0.9ft x 0.6ft x 3.7ft

Easy, fast, safe and eliminates **99.5%** virus and bacteria in **10 minutes.**
